Vatsalya Vatika
Team lead , Managed attendance records and provided guidance to team members.

SKILLS

Ai/ML   Django   flask   Cv2   Css

C   C++   Python   Ms Excel   kotlin

Java   Html   Js

Android app development

Interpersonal Communication   Good listener

Problem-solving

PERSONAL PROJECTS

Dashboard Web Application
- Web application
- data visualization for every filter using graphs
- Libraries : Flask, Matplotlib, Mash, Json, Pandas

Face Attendance System
- Python project
- Attendance system using cv2 to detect face
- Libraries : OS, cv2, Face-detection, Tkinter

Parkinson Disease Prediction
- Python ML model
- predicts Parkinson disease through voice reports
- Libraries : numpy, Pandas, Sklearn

CERTIFICATES

Certificate of internship
Internship program at potters map

Foundations of User Experience (UX) Design
Google (Course certificate)

Predict Sales Revenue with scikit-learn
Project network (Project certificate)

Image Processing with Python
Project network (Project certificate)

Node.js Backend Basics with Best Practices
Project network (Project certificate)

Python for Data Science, AI & Development
IBM (Course certificate)

Learning python by making game
Certificate of completion
